2024 SURVEY RESULTS OF PARTNER ORGANIZATIONS

UIB
SINCE 1992

About Survey

- The survey is conducted to gather feedback from employers on students' internships, their professional and personal qualities, as well as the effectiveness of the internship program. This allows an assessment of how well students performed in a professional environment, determines how their training meets labor market requirements, and collects recommendations for improving the internship process and strengthening collaboration with employers.
- The survey was conducted from **February to April 2024**, with **63 companies participating**.
